- 9:45-9:55 Discussion and actions.

- 9:55-10:00 Any other business; provisional date of the next meeting.

Important Notes: GCA represents a unique transcultural product, not just in the UK or China, but globally, characterized by its nature of social creativity. The notes below for the Council meeting exemplify our practice of self-governance at a small institutional scale, which could be applied to the governance of global society at large.

- Before attending the meeting, all attendees MUST follow the links below to read the 2023 Report, Fellowship, Publications, and GCD9: Global Governance for AI.

- The chair and presenters each take notes independently after their respective sessions and send them back to the President after the meeting.

- The meeting will be recorded for our records. For those invited but unable to attend, the recording will be made available to them only, not publicly.

- The GCA Council meeting will always be held on a Friday in January each year. Following the Council meeting, the Chinese council meeting will be conducted via WeChat.

- The Council meeting will follow the same structure but with a modified agenda according to need.
