

An Invitation for Recommendations / Applications: Global China Academy Fellowships

In 2021, during [the 7th Global China Dialogue – Reforming Global Governance](#), the Global China Academy completed its institutional transformation. This marked the establishment of an academy system with Fellows at its core, and with publishing and dialogue as its two principal platforms. This transformation laid a strong institutional foundation and affirmed the Academy's leadership in research on China from global and comparative perspectives.

Through a formal Fellow selection mechanism, English–Chinese dual language publications, and a series of global dialogue forums, the Global China Academy has built an open, high-level platform dedicated to fulfilling its dual mission: to advance human knowledge (its academic mission) and to contribute to global governance (its social mission).
